

Rotascan

The user friendly
filing system that fits into
a quarter of the space

Got space problems? Rotascan is the user friendly filing system from Codafile™ that solves space problems and complements your office aesthetics. One five tier Rotascan system has the approximate equivalent capacity of five conventional 4 drawer filing cabinets and fits into a quarter of the space.

One 5 tier Rotascan unit = approx. 1 sq metre of space.
Five 4 drawer filing cabinets = approx. 4 sq metres of space.

Codafile™
INNOVATIVE RECORDS MANAGEMENT

Rotascan makes front and back office space problems disappear

Rotascan Systems from Codafile™ feature multi-level revolving tiers and vertical file storage to provide easy to access, space efficiency and multipurpose storage capacity as well as an aesthetically pleasing design. Files are easily identifiable, with speedy retrieval and replacement being a major feature.
